

Intergraf Scholarship

October 2017

Intergraf, the European Federation for Print and Digital Communication, has decided to support Print Media students in their work on relevant topics for our industry. One grant per year will be given to a selected student from a school or university of one of the member countries of Intergraf. The applications are open for master students in their final year as well as phd students or post-doc students from the print media field.

Application Procedure:

The student would need to make a 2-5 page summary of his work in English and be available for a presentation at the next Print Matters for the Future Conference which is usually held mid-May or beginning of June each year.

Intergraf will select among the received applications the most interesting and relevant one that should be shared with representatives from printing associations, printing companies as well as suppliers of the industry.

Applications in English are to be sent by 13. April 2018 at the latest to Beatrice Klose, Intergraf aisbl, Avenue Louise 130A, 1050 Brussels, Belgium or bklose@intergraf.eu.

Grant:

Intergraf will grant a prize of EUR 5,000 for one student per year who will be selected among the applications based on a 2-5 page summary of the thesis. Intergraf will also cover travel and accommodation costs for the presentation at the Print Matters for the Future Conference which will take place in Milan on June 1, 2018.
